

Allied model 3200 Screen & Glass Enclosure

Custom fabricated panels in white, cream, & dark brown

Valuable extras:

- Panels are fully assembled and screened in the factory
- 2" x 2" aluminum tube as master frame for full screen
- No need to install blind stops
- Solid brass gliders won't rust or corrode like plastic
- Perfect for humid hot tub areas
- Heavy-duty screen cloth in a dent resistant fiberglass
- Expansion channels all around for an exact fit
- Storm doors are available in single or French styles
- Angle tops (gable panels) and transoms also available
- Option for fixed lower section to serve as railing
- Panels interlock to fill any size opening
- Control air flow with our slider over slider design
- Window inserts remove easily for cleaning
- Unique construction prevents window binding
- No unattractive filler sections required
- Finishes are maintenance free

Our special design allows the panels to be easily installed from the inside. Great for highrise balconies. Roofing systems to be contractor constructed.
