

Allied model 3300 Screen & Glass Enclosure

Custom fabricated panels in white, cream, & dark brown

Valuable extras:

- Panels are fully assembled and screened in the factory
- 2" x 2" square aluminum tube as master frame
- Transom on the bottom or top of double hung unit
- Heavy-duty screen cloth in a dent resistant fiberglass
- Expansion channels all around for an exact fit
- No need to install a blind stop
- Storm doors are available in single or French styles
- Angle tops (gable panels) available
- Tempered glass to fulfill glazing codes
- Panels interlock to fill any size opening
- Double hung window has full screen
- Ventilate from the top or bottom
- Handles to operate top sash are at the top

Our unique design allows the panels to be easily installed from the inside. Great for highrise balconies
